THE LATE MAIL ROBBERIES .- We have mention ed that special agent T. P. Shallcross arrested Tandy Clark, who had been connected with the postoffice at Franklin, Ky., for depredations on the mails. The case was partially investigated in the U. S. District Court, at Frankfort, last its general introduction, or the machines too com week, and will be concluded within a few days .--The proof of his guilt is said to be positive. Mr. Shallcross is entitled to the highest praise for his nanagement of the matter.

It seems that twenty-five or thirty robberies had been committed recently, by which several nousands of dollars were lost, and a considerable mount of jewelry and other valuables. A draft for \$28,000, sent by a pork firm here, was also aissing. Mr. Shallcross, after spending some weeks in investigating the case, was satisfied that the robberies were committed in the Franklin office. He next obtained information that the accused was spending money profusely, and beyond his means, in dissipating and gambling, and inally he discovered that watches lost from the mails had been sold by Clark. Having his proof, he of course then promptly arrested him. No one in Franklin but Shallcross, it is stated, doubted the honesty of the young man.

THEATER .- Fanny Kemble Butler's beautiful play, "The Duke's Wager," was presented last night in fine style. Mrs. Hayne is celebrated in the character of Gabrielle, and her personation of the part last evening was highly acceptable to her many friends. Mr. Keeble, Mr. Dickson, the fair Miss Ida Vernon, and Miss Schenck, were unexceptionable in their respective characters. The pas styrien, executed by Miss Milly Peters and Mr. G. H. Gilbert, was really good. Under

MUMFORD & NELSON'S ROTATE WASHING TUB. We would call the attention of the citizens of Louisville and vicinity to this most excellent washer. We have tried it in our family for the last five or six weeks, and find it answers every purpose that one could desire in a washing apparatus. The principle is simple and easily understood. There is but little rubbing or wearing of clothes. You also save one-half the soap and twothirds of the time and labor. It is also peculiarly adapted to washing the collars and wristbands of shirts, and the finest of wearing apparel that is worn, without injury to the clothes. The originators, G. Collins & Co., propose to give all and every one a trial, and if they do not like them, they will take them back. Office south side of

Jefferson, between Second and Third streets. Too Quick on Trigger .- A smart brother local, n his paper yesterday, announced that an inmate of the jail gave birth to a child on Tuesday night. We beg to correct this local, who beat the parent in giving birth to her own child. It is true she was in an interesting predicament on the night in question, but the youngster concluded not to appear until Wednesday morning. We haven't doubt he held back just to spite the enterprising local; and it serves him right, for meddling in a woman's business. But the child was born-and ming into this breathing world with no clothes nade up, the good wife of the jailer furnished the baby-clothes for the

A VALUABLE Dog .- A lady who took passage on the Jacob Strader at Louisville the other day for Hanover Landing, let her basket, containing articles of clothing, fall overboard as the boat was naking the shore at the above place. Her faith ful follower, a noble Newfoundland dog, observing the mishap of his mistress, commenced whining and wagging his tail, and at the words "fetch , Bounce!" the dog leaped into the water, clutched the handle of the basket between his teeth, and swam safely to shore, where he remained barking, as though in triumph, until his mis-

ENGLISH OPERA.-We were glad to see the beginning of a just appreciation of this most excellent troupe, at their performance of the "Bo hemian Girl" last night. Our musical public have been slow in finding out how much merit they possess, but they will now show that they can understand and appreciate their singing. We trust that the attendance will be so large on the coming evenings of this week, that the company will be induced to remain a short time beyond their announced engagement. How to RISE IN THE WORLD .- The subject of Prof. Fowler's lecture to night is, What to Do, or the Application of Phrenology to the Choice of the most Appropriate Occupation or Pursuit in Life; pointing out those avocations to which each person is best adapted, and in which he may, or may not, best succeed. A very useful lecture. During the day, Prof. Fowler may be consulted professionally in the gentlemen's parlor at the Louisville

FROM CALIFORNIA .- The St. Louis Republican

of yesterday, has details of California intelligence to December 17th, by the 27th overland mail, but it presents few features of interest other than the telegraphic report.

since the introduction of coal gas as an illuminating agent, various have been the attempts to invent some apparatus by which the costly works and pipes necessary to manufacture and distribute coal gas would be done away with, and yet retain the safety, convenience and brilliant light of gas. Some of these inventions have been placed before the public, yet in all we have seen heretofore, we have found some objections. Either the apparatus was too expensive to allow plicated to be readily understood and worked by servants; or, as is most generally the case, the light was of much less strength than coal gas, and nuch more expensive. Now what is wanted is a light equally as brilliant, cheap, safe and convenient as coal gas. The apparatus must be as simple as gas fixtures, and as little liable to get out of order. In order to accomplish these objects, it would be necessary to use some compound rich in carbon (the light-giving quality of all illuminating oils) without the aid of a chimney .-The more carbon contained in an oil,

A Novel Illuminating Gas Apparatus.—Ever

the more light will it afford; and of course the light is diminished as the carbon is removed. Now, for example, there is an article in ommerce known as burning fluid. This fluid contains a small proportion of carbon, and therefore affords but little light. Burning fluid is composed of four parts of alcohol and one part of camphene (spirits of turpentine). Camphene contains nearly eighty parts in one hundred of carbon, and, therefore, when used in a lamp adapted to it, gives a powerful light. Alcohol, however, which forms four-fifths of the bulk of burning fluid, contains little or no carbon, and gives, when lighted, merely a blue flame. Thus it is evident that one gallon of camphene, in a properly constructed lamp, will give the light of five gallons of burning fluid. Camphene, however, is a difficult article to manage, and therefore we must turn our attention to another source. Coal oil, of late. has almost entirely superseded the use of camphene and burning fluid, yet the ordinary coal oil lamps have neither the convenience, beauty, nor cleanliness of coal gas. And this brings us back to the apparatus which suggested this ar-

The Vesper coal oil gas-light apparatus, which we have recently examined, meets with our approval in every particular. The fixtures resemble those of coal gas precisely. No costly or complicated machinery is used to generate the gas .-The gas is generated and consumed in the burner, and the fixtures are adapted for use wherever artificial light is needed. A light coal oil, containing eighty per cent. carbon, is used as the illuminating agent, and by a simple and beautiful contrivance, the vapor of the oil is mingled with atmospheric air before it reaches the point of combustion. By this contrivance a most perfect combustion of the vapor is effected, and the result is, a light more brilliant than even Louisville coal gas is produced. The light of the Vesper burner resembles daylight more than any other artificial light we ever saw, and above all, the cost of burnng is slight, and the apparatus is quite as easily managed as coal gas fixtures. We were astonished when told that the Vesper burner would produce the light of one thousand cubic feet of gas for one dollar and fifty cents; yet, when its principles were explained, we understood at once how so bright a light could be produced at so small a cost, and, struck with its simplicity, we wondered why it had not been thought of before. The Vesper coal oil gas light, in our opinion, is destined to become an institution in the land, and in this we are supported by the evidence of several eminent chemists, who have given it a thorough examination, and who jointly pronounce it "the safest and best light now in use."

INAUGURATION OF THE JACKSON STATUE.-The Jackson was a member, was very largely represented, comprising all the grades from Entered Apprentice to Knights Templars, the latter of whom were in full force, and presented a very handsome appearance in their rich and unique re galia. The Rev. G. P. Schetky acted as Grand Chaplain, and Most Worshipful Chas. Scott conducted the imposing ceremonies usual to the order. Hon. Andrew Ewing delivered the oration in the Varieties Theater, the dress circle of which blazed with an effulgence of beauty richer and rarer than it often falls on the lot of man'to behold The Governor of the State and staff, clergy, old soldiers, marshals, etc., occupied the stage. After the oration, the procession again repaired to the court square, where the bust (having in the meantime been seated in its place) was revealed. and an appropriate address made by Edward

Pickett, to which the Mayor responded. SAVANNAH RACES .- On the second day Fanny Washington beat Hempland in two straight heats heavy betting on the result. The three mile ourse of \$600 was won by Lizzie McDonald ceating Charley Ball and Gov. Wickliffe-the latter distanced the third heat. Time 5.57-5.57-5.561/2. For the Colt stake for three year olds, Socks beat the "star" Virginia horse "Planet," who was never eclipsed before. He was the fa vorite at odds, and was distanced the second heat Time 1.51-1.521/2. On the same day Charley Ball beat Don Juan in mile heats. Time 1.531/2-1.511/2-1.541/4. For the purse \$300, mile heats best 3 in 5, "Socks" knocked the party, beating Don Juan and Jenny Rose. Time 1.54-1.513/-

1.51%. THE LATE GEN. HENDERSON .- Brig. Gen. Archibald Henderson, of the U.S. marine corps, who died in Washington on the 6th inst., was a native of Virginia, entered the service in 1806, and rose to the rank of Lieut. Colonel Commandant in 1820. He commanded a battalion of marines in the Florida war against the Seminoles; he led the troops in the bloody and desperate engagement with the Indians on the Hatcheeluskie, January 27, 1837, and was breveted Brigadier-General for his gallant and efficient conduct while command ing the marines in Alabama, Florida, and Tennessee, against hostile savages. His life as a soldier exceeded half a century, and that whole period of service was illustrated by the noblest instances of manly courage and patriotic devotion.

ARREST OF GAMBLERS .- The Mayor of Pitts burgh is entering upon a crusade against the gamblers. A big haul was made Saturday even ing. Two common gamblers named M'Kee and Cox were arrested, together with about fifteen persons who were handling the chips. The Pittsburgh Dispatch says:

Cox was committed to answer the charge of Cox was committed to answer the charge of being a common gambler, and in default of \$2,000 bail. M'Kee is in Louisville, Ky., and consequently escaped immediate arrest. Wilson will doubtless be held to answer to-day. Those in attendance (and there was a member of Council for a neighboring city among them) will be held as witnesses against the principals of these establishments.

It is said that Cox is a fugitive from justice—having fled from Terre Haute. Ind., where an in-

Double Murder by a Horse Thier.—Information reached us this morning, of the shooting and killing by a horse thief, of Samuel Stewart, and Reuben Palmer, of Eldorado. They were pursuing a horse thief in the Cherokee Nation, when he turned and shot and killed both. Stewart and his companion had overtaken and arrested the horse thief, and were returning with him to Eldorado. They supposed they had thoroughly disarmed the villian, but it seems that he had a revolver secreted upon his person which they did not discover. While stopping at a hotel on the road the thief asked Mr. Stewart to call the landlord and "they would have some fun." Stewart not and "they would have some fun." Stewart not suspecting, stepped to the door, and hardly cleared it when the wretch drew a revolver and shot Mr. it when the wretch drew a revolver and shot Mr. Palmer, killing him on the spot. Stewart heard the report of the pistol and immediately sprang to the door, but as he opened it, the villian shot him also, killing him instantly. The affair has caused much excitement at Eldorado, and a man called Hildebrand, supposed to be implicated in the affair somehow, has been whipped and driven out of the country. Mr. Stewart leaves two orphan daughters to mourn his sudden and terrible death.

[For the Daily Courier.] The Southern Pacific Railroad.

Editors Louisville Courier :- At present the chief cry seems to be the Pacific Railroad and Cuba. I hope, with all my heart, that the Southern Pacific R. R. will be built. It will assuredly prove the best paying road, and the one presenting the most favorable circumstances of shortness of location in our agricultural country-not far from sea ports on the Gulf of Mexico, of mild climate,

etc. But I do not think private enterprise sufficiently powerful in any respect to accomplish this stupendous undertaking. The General Government alone can reasonably assume the great liabilities attendant on such a work; it alone is capable of sustaining the prolonged struggle ere this work will be completed. However, our citizens throughout the U. States seem to be at work in good earnest, and I regret that local interest prevents unity of plan, though their spirit and enthusiasm may spur on the Government to com mence active operations.

Along the 32d parallel of north latitude, the rivers of Texas would be intersected. These are real rivers, with water in them, and the land on their banks sustains grass and timber, essential requisites to the successful settlement of a country. Now the rivers marked on the maps to the north of the 32d parallel are perfect cheats and impositions to those who, looking at the map only, have not by personal observation become acquainted with their peculiar characteristics, or know that the beds of these rivers are composed know that the beds of these rivers are composed of dry sands, which drink up the waters with an insatiable thirst. How often have I traveled miles in the very bed of the Canyadian, my men and horses languishing for the want of water and in the Arkansas; river how meager the supply, of vilest, repulsive qualities, turbid with dark red clay and sand, impregnated with saline materials to a degree that is sickening, and the surrouning land of arid sand, so sterile, so sun-parched, that the running of the herds of buffalo raises clouds of dust. The Largest Land Case before the Supreme Court. [Correspondence of the New York Eve WASHINGTON, Jan. 7, 1859.

A very important land case is being argued be fore the Supreme Court, now in session in this city, between the United States vs. John A. Sutter.— It is a matter of great interest to the property holders of Sacramento. Sutter claims thirty-three square leagues of land, lying upon the Sac-ramento, Feather, and American rivers, under wo grants-one of eleven leagues, made by Gov B. Alvarado in 1841, and the other twenty-two eagues, made by Gov. Micheltorena in 1845. The United States deny the genuineness and validity of each of these grants upon many grounds, and further contend that if the grants are genuine and valid, they embrace within their limits the land lying south of the Three Peaks and between the Sacramento and Feather rivers, and no land to the south or east of the Feather river. Two sets of counsel appear for Sut-ter, both acting under written powers of Attornev, and these counsel endeavor to locate the land different manners John J. Crittenden and R. J. Walker endeavor to locate it so that it shall ex-tend to the south of American river, and include the whole city of Sacramento. Benj. F. Butler and N. S. J. Green, of M. ssachusetts, who also appear for Sutter, endeavor to locate the land north and west of Feather river, and claim that that was the original intent of Sutter in asking for, and of the Governor in making the grant, and that such a location would also be for the best interests of Sutter.

At the opening of the case Mr. Crittenden stated that the counsel who claimed to appear for rated at Memphis on the 8th of January with grand ceremonies. Thousands of persons were present. THURSDAY,JANUARY 13, 1859. Reading Matter on every page.

Hon Beriah Magoffin. The Eighth of January Convention, in nominat ing the Hon. Beriah Magoffin for Governor, gave to the Democracy of Kentucky an unexceptionable candidate. The delegates who opposed Magoffin in the convention were not against him upon any other grounds than those of personal preferences for others. Boyd, and Talbott, and Hise, and Mc-Creary, and Bradley had their friends in the convention, but not one of those friends were politically opposed to Magoffin. They were all glad to see him nominated when the favorite of each was

out of the ring. The convention which has put foward Magoffin was the largest ever held in Kentucky. The city of Frankfort never held so many delegates at one time. The public houses were all overflowed, and the streets a tide of men. Many had not where to lay their head for sleep, and found little to eat while awake. If Frankfort don't grow larger and build more houses of entertainment by the time of the holding of the next convention, another place will have to be sought to accommo date the hosts of the Democracy.

As said before, the nomination of Magoffin will give universal satisfaction. He is a gentleman and a scholar. Fluent of speech, affable of manner, and popular of address, he will make a good impression wherever he goes. He made himself popular in the race of 1855, while canvassing the State for Lieut. Governor, and he will become far more popular in 1855 while making the race for the first office. He will get all the Democratic votes, and many Old-Line Whigs, and may be, a few Know Nothings.

a native of Mercer county, where he now resides His grandfather, Samuel McAfee, a pioneer of the Old Dominion, settled in this county in 1775. The name and the family are familiar to every Kenincidents in our early history.

He was sent to Center College at an early age, nd graduated at eighteen. While in college he was one of the only three Democrats there. Extraordinary efforts were made to convert him to avail. He was born a Democrat, he carried his ocracy through school and through college, and he expects to die a Democrat-not, however, until he has been Governor of Kentucky, and done many good things for his party beyond the offices of Chief Executive of the State. The political career of Mr. Magoffin began

1840, when he was but a youth. He mounted the stump, and did what he could to quell the disturbances that had been created in the land by log cabins and hard cider. His speeches were the admiration of all who heard them in that campaign, and were considered first class States Rights efforts. In 1844, when Gen Butler was a candidate for Governor, Mr. M. was appointed elector for the Fifth District, and although it was overwhelmingly Whig at the time, after one of the fiercest contests ever waged in Kentucky, (except that of 1855,) he carried the district by nearly 500 votes; and if the other districts had done as well, the gallant old General would have been elected by a handsome majority. In 1848 he was appointed assistant elector for the State at large, and canvassed nearly half of the State. In 1850 he was elected without opposition to the Senate of Kentucky, the duties of which station weeks, and years, without such a work. he discharged, as admitted by all parties, with distinguished ability. In 1855 he was the nominee of the Democratic party for Lieutenant Governor, and as such canvassed the entire Stateonly failing of an election in that bitter contest by 3,674 votes, the majority against Magoffin being much less than against any other candidate on the ticket. He was a delegate for the State at large to the Cincinnati Convention, in 1856, and was again elector for his own district, which gave an overwhelming majority for the Democratic nominees.

While he was in the Senate of Kentucky, he took an active part in the cause of popular education. He was the draughtsman of the common school bill, under which our State education now progresses. The children who are now being educated under the provisions of that bill, and the parents of those children, will not forget Mr. Magoffin in August next. He will be voted for not only as a partizan, but as a patriot, devoted to the great cause of education. His moral character is without stain, his political without a blemish, and, take him all in all, he is the man for the time and place to which the proud Democracy have destined him. He will carry the State by at least twenty thousand, and there is no telling what majority he will get. The Democracy must make up a complimentary vote for him as a reward for his defeat in 1855; but there is no necessity for giving him more than forty thousand majority. He is entitled to twenty thousand as the strength of his party, and we think that an equal number as a compliment will suffice. We hope, therefore, that the Democracy will make up their minds not to elect him by more than forty thousand majority.

TRIBUTE FROM AN OPPONENT .- The Democracy are fortunate in having as their candidate for Governor a gentleman who personally does not offer a vulnerable point to his opponents, and who politically has an escutcheon without stain or blemish. Even the bitterest enemies of Democracy are compelled to concede the high personal worth of Mr. Magoffin. In an article on his nomination, the Frankfort Commonwealth, a violent

"Opposition" paper, says:

He is an amiable, social, genial gentleman; dispenses an elegant hospitality in his own mansion; is honorable and scrupulously honest in all his private business transactions, and altogether is too clever a man to be the leader of the party which he belongs.

The great feature of the convention was the triumph of the Breckinridge interest over the Boyd party, the zealous supporters of the Le-compton policy of the Administration.

above is a portion of the telegraphic dispatch sent to the eastern press, giving the proceedings of the Kentucky Democratic State Convention. If the individual who sent it means to say that Magoffin's success over Boyd was a triumph over ecomptonism-and his words are evidently designed to convey that impression-he is a most ntense liar. Both Magoffin and Boyd were warm ly and thoroughly in favor of the Lecompton policy of the Administration, and that question fid not have the slightest influence in the ballotings between them. It was never for a moment ight of, as in that respect both gentlemen

stood precisely on an equal footing. The class of 1829 of Harvard College dined ogether on the 6th inst. LETTER FROM WASHINGTON.

[Correspondence of the Louisville Courier.] The Kansas Difficulties-Foreign Affairs-State Convention.

Washington, Jan. 11 1859. Editors Louisville Courier: The news from Kansas indicates that the people of that unfortunate Territory are still doomed to suffer the inde- bleached and brown cottons, plaid cottons, and scribable barbarities of civil war. For the last few months we have enjoyed comparative quiet in received by Adams' Express a handsome assortment gard to Kansas, but it will not do. More outrages must be committed there, or the Abolitionists | which I respectfully invite the attention of ladies. will have nothing to "shriek" about. It must keep up its reputation as "Bleeding Kansas," or 'Othello's occupation's gone." I am informed that the President will take decisive and energetic measures in regard to the present disturbances in Kansas. He has been forbearing long enough. and has determined at all hazards to maintain domestic peace. The same firmness which has characterized his action in regard to the "search question;" which has quieted the affairs with Utah; the same decision of character which marked his course in calling out the "Marines" during the riots in this city, will hereafter distinguish his policy towards the rebels in Kansas.

The news from France and England, brought by a recent foreign arrival, cannot failed to have struck you with peculiar force. The French foreign minister is indignant at the proposal of the President to purchase Cuba. He intimates that France and England have already given our Government to understand that they will not tolerate the cession of Cuba to this country, even with the onsent of Spain. It seems to me that this ends all diplomacy. If we want Cuba, or Mexico, or the obtain them as England obtained India, or as France obtained Algiers. Ithink our neutrality laws | great bargains. should either be repealed or materially modified We can't buy it, and if we could, France and Engand would interpose. What shall we do then? If I variety and at the lowest possible prices. were not fearful of shocking the conservatism of the nation, (of which, by the way, I have a most supreme contempt), I would say seize the island for debts due our Government. France and England will discover that we can conquer and annex as well as they, and that we scorn alike their impudence, and their officious intermeddling. France controls the Government of Spain, and, of course,

sell Cuba. It sees that with it we would become the most formidable people in the world. The Governments of Europe are jealous of our institutions, our success, and our power, and would long since have engaged in war with us, if they did no fear the smoldering fires of revolution. In a war with France and England we would have material assistance from the democracy of all Europe. In deed, such a war would be regarded as a war for universal liberty and the rights of man. In its effeets I confess it would be terrible. But in the end it would redound to the glory of our country and the good of all mankind. These are my sen iments-perhaps somewhat ultra; but I have long been in favor of the "next war," and avail my self of this early opportunity to give my views on it, though, I confess, a war with France or Eng land looks to me to be decidedly in the "prospect

I have heard of only one or two of the nominees of the convention of the Sth. When I shall have heard who compose the whole ticket, and shall see the platform, I will-although in Washingtonspeak of them freely and at length. I will just remark that the nomination of Boyd for Lieutenant

Governor took most of us by surprise. The next Legislature of Kentucky will be called on to elect a successor to Mr. Crittenden. The at. tention of the people will soon be agitated as to whom the Democracy will support for that highly elected at that time will not take his seat until 1861. So far as I have conversed on this subject, there seems to be but one opinion, and that is to centre on Jno. C. Breckinridge. He is in my opinion the choice of the people, and would fill the Mr. Magaffin is now in the prime of life. He is position with eminent distinction.

BY TELEGRAPH.

XXXVth CONGRESS-SECOND SESSION. Wednesday's Proceedings Washington, Jan. 12—Senate.—The President, in reply to Seward's resolution, informed the Senate that the vessel Wanderer has landed a cargo of Africans in Georgia; also, that every effort is making to bring the guilty parties to justice; but it is not expedient now to make public the correspondence on the subject.

On motion of Mr. Hunter, of Va., the communication was ordered to be printed.

Mr. Hale, of N. H., from the Naval Committee, reported a joint resolution authorizing the President to appoint Commodore Stewart senior flag officer of the United States Navy on the active list, as recompense for his distinguished services. Laid over. WASHINGTON, Jan. 12-SENATE. - The President

MRES. JULIA DEAN HAYNE.

THIS (Thursday) EVENING, January 18th, will be presented Sheridan Knowles' superb five-act play of LOVE; or, The Countess and the Serf—The Countess, Mrs. Julia Dean Hayne; Huon, the Serf, Mr. Keeble; Duke, Lorton; Coant Ulrick, Walls; Sir Rupert, Dickson; Prince Frederick, Swift; Sir Otto, Townsend; Sir Conrad, St. Clair; Stephen, Dillon; Falconer, Reeve; The Empress, Mrs. Gilbert; Catharine, Mrs. Dickson... To conclude with the beautiful and thrilling story of the Ocean, in one act, entitle THE SEA; or, The Ocean Child—Harry Helm, a Seaman, Mr. Keeble; Captain Manderville, Swift; Peter Poultice, Scallan; Dennis O'Trot, Reeve; Captain Sturdy, St. Clair; Father Neptune, Dillon; Jack Junk, Brown; Will Capstem, Williams; Mary Helm, Miss Vernon; The Ocean Child, Miss Turner. Mr. Fitch, of Indiana, from the Committee on Mr. Fitch, of Indiana, from the Committee on Printing, reported against printing numerous documents; among others, the printing of 50,000 copies of Mr. Crittenden's and Vice President Breckinridge's speeches on bidding farewell to the chamber formerly occupied by the Senate.

The Pacific Railroad bill was then taken up, the question being on Mr. Iverson's, of Ga., amendment that the bill be recommitted to the old committee with instructions to report a bill for the construction of a Northern and a Southern road. **COOPER'S OPERA TROUPE**

Mr. Doolittle, of Wis., moved to amend by in-erting, "and a central road." The Senate then proceeded to vote on the House.—Mr. Stephens, of Ga., asked leave to

report the Oregon bill at once, as some days will probably elapse before the Committee on Territories would be called on for reports, and desired that some day next week should be set apart for s consideration.

Mr. Morgan, of New York, preferred that the

House should proceed with its business in regular Mr. Stephens. I hope the gentleman will withdraw his objection.

Mr. Morgan. I cannot yield one jot.

Mr. Houston, of Ala., desired to make a report
from the Judiciary Committee.

Mr. Stephens said that, as he could not report the Oregon bill except when the committees are regularly called for reports, he should object to all other business that was out of order.

necessary delay of a sovereign State is now denied its right of equality.

The House then resumed the consideration of the motion to refer the Naval Appropriation bill to the Committee of Naval Affairs.

Mr. Sherman, of Ohio, thought it strange that a proposition to refer the Naval Appropriation bill to the Naval Committee should meet with so much opposition. If the committees of the House were not to be invested with the legislation appropriate to them, they ought to be abolished.

Nearly all important legislation is employed in arly all important legislation is embodied in eappropriation bills. By the practice of the cuse, these must be framed and acted upon by a ingle committee—that having charge of Way, nd Meams. From necessity they must adopt lmost without change, the estimates of the Exec

It is impossible, and yet its chairman resists a reference or examination of these bills by other committees. He should, on the contrary, seek and demand their scrutiny. He contended that the reference proposed was a practical measure of reform that would reduce the naval bill not less than two millions of dollars, and if generally practiced would tend to reduce the expenditures and make each committee responsible for its branch of the public business, and secure a more thorough scrutiny into estimates of the department. or the public business, and secure a more thorough scrutiny into estimates of the departments.

Mr. Washburne, of Maine, opposed the motion. Mr. Sherman, of Ohio, replied that the bill appropriates over two millions for the Navy yards and over three millions for repairs to vessels.—
He was prepared to show that too much money was the cost of repairs. The expenditures at the Navy yards have largely increased since 1830.—

Mr. Grow, of Pa., advocated the pending mo-

McLean's Volcanie Oil Liniment,

The best Liniment in the world for man or beast.

Another remarkable cure performed by McLean's Voicanic Oil Liniment. Read for yourselves:

Thomas Ford, a blacksmith, living near Cass avenue, on Tenth street, had a horrible running sore on his foot. He tried various Liniments, Salves, &c., but could do it no good. He despaired of ever being able to work at his trade again, because he could not bear any weight on his foot; and by one small bottle of McLean's Voicanic Oil Liniment, he is now perfectly cured.

Rheumatism, paralysis, neuralgia, bruises, sprains, stiffness in the joints or muscles, swellings, sore throat, earache or toothache, wounds, fresh cuis, sores, burns, scalds, pains, &c., yield to the "magic" influence of this wonderful Liniment.

GAZEL, Evans, Pitts; HENRY FITZHUGH, Windsor, Arkansas river. SCIOTO No. 2, Ballard, Hend

THE RIVER was falling rather slowly, yesterday, with seven feet water in the canal, by the mark. This would make nearly eight feet water for steamboats. During the previous 24 hours the river had receded four or five inches at the head of the falls. On the falls there were five feet wa-

ter in the pass, or dug chute. The weather was mild and delightfully pleasant.

The warm weather has made the river commence rising again at Pittsburgh, as will be seen by our dispatches, in another column. At Cincinnati it was falling slowly.

Last evening, a heavy mist and fog settled on the river, making it hazardous for boats to run, and all that were out would have to the up until and all that were out would have to tie up until

it cleared off. Business was rather dull at the wharf, yesterday, and most of the packets were receiving but slim freights. The Southerner, however, for Memphis, got a big trip of freight. She was loaded to the guards with merchandize, liquors, and manufactured articles.

FOR WABASH .- The new steamer Caroline, Capt. ller, a neat, staunch boat, takes her departure

to the Wabash to day. FOR TENNESSEE.-The favorite packet Time, Capt. Johnson, takes her departure to all landings along Tennessee river, this afternoon. The clerk, A. McVay, is one of the most courteous and prompt on the river.

The Gazel goes to Pittsburgh this afternoon at 4 o'clock. She was receiving a lot of thour yesterday for the East. More Coal Come and Gone .- The Diurnal got in yesterday with about 60,000 bushels of coal, and the great Guthrie's load for Hyatt was about

70,000 bushels.

The Conestoga, a new tow boat, came in from Pittsburgh with a large fleet of tow boats, containing no less than 100,000 bushels of coal for New Orleans. The boats are drawing six feet, which is too much water for the falls, and the tow boat is said to be too big for the canal, and she cannot receive her very expenses. Prosecute her voyage South until the river rises.
Yesterday Capt. Wm. Dawson, of Warrenton, an old boatman, started South with a brace of flatboats laden with coal, the rear guard of the fleet, and probably the last pair of boats to start South on the present water.

We learn from the Cincinnati Commercial, if yesterday, that the hull of Capt. Davidson's new Minnesota river packet, built at Symmes creek, arrived in tow of the Boston. It is a nice little sidewheel clipper. The machinery is being completed at the Niles' Works.

The Fort Wayne, from New Orleans, with nearly 1,500 barrels of molasses for upper ports and 880 hhds of sugar—a heavy freight—ran fou of the bank, in the fog no doubt, and sprung a leak. She stopped at Evansville, on Monday, where protest was entered.

The flying Alvin Adams is due from Memphis to day.

The Southerner, on Tuesday evening, just at dusk, on her way up the river, ran foul of a pair of coalboats, causing one to sink. The accident occurred just below Alton, on the Ohio, as the steamer was going round the point, or short bend in the river. The coalboats were under the shade of the shore, right under the point, and the steamer was almost on them before they were aware of it. She stopped her engines, and then "backed." but the forward guard struck one of the boats in the bow and store in the bulkhead.— Capt. Triplett then took the crippled boat in tow, and beached it on the sand-bar just pelow, where it now lies in shoal water-the coal all safe The coal boats belong to McCluskey, of Pittsurgh. The loss cannot be much. The Southmer lay by with the boats some three hours,

and brought the crew of the sunken boat to thi port. The other boat went ahead. The crew o the flatboats appeared to lose all presence of mind when they saw the steamboat coming at them, al except one chap, an Irishman, of course. H took it easy enough, maintaining his position on the bow of the coal boat, and as the steamer struck her, he coolly remarked, nodding his head to the boat, there, by hokey, is \$7,000 out of your pocket. The Hickman reports the following boats in the Arkansas: Banjo at Fort Smith, Darda

nello at Van Buren, Violette, Sparta and Jennie Whipple at Ozark, T. H. Tucker at Lewisburg, Little Rock at Little Rock, Titania at Little Rock, band for Forts nith and Van Buren, to run as se points, Arkansas below Pine Bluff, Medora at Post. Thanks to Maj. Scott, mail agent of the Telph No. 3, for a manifest.

The officers of the mail boat report the Sul The river had fallen so much that her forecastle and larboard guard were above water. The Kentucky, yesterday, was at the wreck of the Metropolis, taking off freight, The Dove, from Kentucky river, vesterday

Cincinnati Gazette of yesterday:

The Kate French brought up from the wreck of the Metropolis yesterday, about 150 tons of miscellaneous freight to be sold here to the highest bidder. The other portion of her cargo has gone to Louisville. The Metropolis is in a wretched condition.

The "76" has engagements for 600 tons of iron to come out of the Cumberland.

It is estimated that there were about 200 stevedores on the landing yesterday, in search of employment.

success.
It is said that there is considerable freight at Madison for reshipment to the South.
The Conewago was engaged all day yesterday receiving 150 tons of bridge timber above here, for the Cumberland river.
The Moses Greenwood has been sold to A. Shinkle by the U.S. Marshal here for \$1,825.

NASHVILLE PACKET.—The Tempest, Capt. Parr, is the regular and permanent packet for Nashville and all Cumberland river landings this evening. She starts at 4 o'clock from the city wharf, and will provide comfortably for passengers, as

well as to take good care of freight.

For the East.—The Telegraph No. 3, the long armed champion of the Ohio, is the mail and passenger packet for the East at noon to-day. She travels at railroad speed, and connects with all the early trains going East.

FOR OWENSBORO AND HENDERSON.-The Sciot No. 2 is the regular packet for Owensboro, Evans-ville, and Henderson this evening. She starts at 4 o'clock, from Portland, in charge of Capt. Bal-lard, a clever boatman, with Capt. Jerome Duncan in the office to attend to passengers.

LIGHTNING LINE FOR NEW ORLEANS,-The regu lar and favorite packet, Woodford, of the Light-ning line, takes her departure to New Orleans this evening. She starts at 5 o'clock, from Portland, in charge of Capt. Irwin, an experienced boatman, with the courteous McLaughlin, one of the best and most attentive clerks on the river in the office.

The Conewago is due this morning on he

Some ice was reported "high up in the Wabash," but we think the present spell of weather will sink it low down to the bottom of the river.

The Queen City, heavily laden, with a heavy barge in tow, all laden at Madison, went out the canal last evening, on her way South. She would have a hard rub to get through the mud.

The John Raine.—This packet was taken into the canal docket yesterday, to fully repair the damage sustained by her collision with the sunken coalboat on the falls. One or two planks above the keelson were broken. Her cargo was not hurt, and she probably got out last evening. The Diana, hence for New Orleans, passed airo full of passengers and laden to the guards. The Granite State, from Tennessee river

XXXVth CONGRESS-SECOND SESSION.

Wednesday's Proceedings Continued.

Senatz.—The discussion on Mr. Iverson's moion to recommit was continued at great length.

Mr. Green, of Mo., considered that one road would answer all the wants of the Government and believed that Congress had the constitution right to construct it. Although he would prefer signate the exact terminus, he would concede the natter, and would, at a future time, propose to so amend that the eastern terminus should be at the nost eligible spot on the western boundary of Misouri, and, to make it more acceptable, he Sioux City, connecting with northern cities, al cting with the trunk road, about longity connecting with the trans road, above. It must be remembered that the required route is not from the Atlantic, but from the Mississippi Valley to he Pacific. His route would accomm

Mr. Brown, of Miss., argued equally against the constitutionality and necessity of the road. He contended that the Constitution gave power to construct works where the necessity was immediate, whereas, we have no need of this road, and

will not have for a century to come.

Mr. Bigler, of Pa., after some general remarks on the bill, showed that while it made provision for the construction over the rich country on both sides of the mountains, it was inadequate for the mountainous and desert region between. His iews were to divide the route into three division -Eastern, Western, and middle-to be completed in 25 mile sections, and to withhold the propor-tion of aid from the Western and Eastern, until the middle section was completed.

Mr. Foster, of Conn., reminded Senators of the necessity of haste, as only 42 working days of the ession now remained.

Mr. Pugh, of Ohio; Mr. Allen, of R. I., and oth-rs, took brief parts in the debate. Mr. Doolittle, of Wis., explained the provisions of his substitute for the whole bill. [This substi-tute was published in the Globe, of yesterday.] Mr. Bigler here moved an amendment, in effect that the read be located between the 27th and 43d

egrees of latitude. Mr. Houston, of Texas, spoke in favor of the El Paso route, and asked, why rule out all the south to the southward of the 37th degree. During the 12 or 14 years he had occupied a seat in the Senate, the manifestations of sectional jealousy had caused him deep and unspeakable regret. He had never heard that chord struct without pain. It seemed to him as if gentlement whose talents should be applied to perpetuate the Union, have devised causes of disagreement be-tween the North and South. When he first heard the cry of disunion, (it was in the other House, he thought it treason, and thought the individua who uttered it should have been crucified. It is not more acceptable now, although more familia Disunion! as well hope to have a healthy patien f you cut out the main artery of his life. Wil you cut the Mississippi in two? Who will have ts sources? who its mouth? and will the grea

West suffer itself to be bereft of either?
Gentlemen have spoken for the mouth, as hey held its destinies in the hollow of the hands. He, himself, was born in the South. I man has broader interests than he, for his all there. Thus he, too, represented the South There are those in the South who pray for har-mony and union—men strong in holy fealty for their country and the Constitution. It would be easier for one Sta e to come back, than for others to go out with it. The moment it goes out it as-sumes the attitude of rebellion. Let the wise men f the South turn their heads towards the Union not criminating and re-criminating; reflecting no talking. Let the gentlemen of the North abstain from bitterness on the Southern institutions While it is the policy of the North to escheve the southern institutions where it is the policy of the North to escheve the southern which the southern makes the south to make slavery, it is the necessity of the South to mai tain it. He did not join in the talk of Southerrights. The South has no rights except those of the North, and the North none except those of the South. It is a cant phrase, tending to influer the popular passions. As regards the negro what better use can be made of them? We did not bring them here. We did not engage in th slave trade, at least, until recently, and, said he "I brand that as an act of unmitigated infamy. He concluded his remarks by counseling the people to live in harmony and cultivate the ad-vantages God has given them as an united na-

Mr. Douglas, of Ills., spoke against the re-committal of the bill. He refrained from discussing the main question, but protested against the 37th rallel being made the Southern limit. I shed no limits to be made, either North outh, but was in favor of the best road, whereve located. He desired the road, or roads, to be built, and had no doubt of the constitutionality thereof. He would permit the contractors to lo eate the route, as he was unwilling to leave the coation of it to the political action of the Govern

The motion to recommit was lost-32 against 23 Mr. Iverson, of Ga., alluding to his recent peech, said he had expressed no desire to dissolve a Union that would promote the inter sectional basis, by the demon of Abolitionism, would crush into atoms and trample upon as on the veriest reptile. He commented, in a tone of severity, on Mr. Houston's remarks, that he never ard a Union speech from a S at a suspicion that it related to the Preside lso, that Texas has placed him (Mr. Hous n retirement, on account of his intensity of feelin n favor of the Union at the sacrifice of his ow section, and he (Mr. Iverson) was glad of it. Mr. Doolittle asked, could the Senator fro

Georgia name any prominent man of the Rep Mr. Iverson replied that the prominent pe cians of the North disclaim any such intention the looked upon that as a fraud and preter He looked to their acts. He referred to the Roclester speech, and said the Senator from New You (Mr. Seward) had too much good sense to believ what he said—that the South would insist on e ablishing slavery in the North. That was umbug. Mr. Iverson believed, as he did in own existence, that it is the settled design of Northern States to break down the institution

Mr. Houston rose to reply, but Mr. Polk obtained the floor, and prevented further debate by moving an adjournment, which was agreed to. House,-Howard said that pending a motion adical change was proposed in the business of the House without a change of rules. The Commit

like a rock against extravagant expenditures. I had never heard of the other committees red eing amounts below the estimate. They alway

ment amount to \$82,000,000 per annum. This extravagance resulted from our system of legislation, and from the fact that the Committee of Ways and Means merely carry out the recom-mendations of the heads of various departments. This committee have not time to devote to such a arge amount of business. Hence there should pe, as far as practicable, an equalization of dues. Jones, of Tenn., thought the pending propos

tions would obstruct business and produce confusion. By an adherence to the rules, all measures could be intelligently and properly considered Without voting on the question, the Hous

went into a Committee of the Whole on the state

of the Union on the President's message.

Mr. Jenkins, of Va., said that while the House yesterday, was discussing dead issues, they los ight of the fact that the British Minister is n regotiating a treat with Central America, and from this proceeding we shall share like the doves from the protecting care of the hawk. He supported the resolution heretofore reported to the House, requiring the President to take such steps as may, in his judgment, result in the recody shorest time of the Clearton Pulsary to the steps as may, in his judgment, result in the speedy abrogation of the Clayton-Bulwer treaty, which was the result of European diplomacy. He contended that we derive no advantage from it, and asserted that England is unfaithful to its fulfillment, and that it is a constant and fruitful source of irritation and animosity between the contracting parties. The treaty should be abrogated for two reasons. First—because Great Britain had no right in Central America outside of the treaty, and secondly—because her pretensions to protectorates over portions of Central

of the treaty, and secondly—because her pretensions to protectorates over portions of Central America are founded solely on that treaty.

Mr. Giddings, of Ohio, said the President, in his message, proceeded upon the principle that Government has a right to transform human beings into property. The framers of the Constitution proclaimed the great fundamental truth ou which the Republican party is based, viz: The right of all men to the enjoyment of life and liberty. He devoted much time to the consideration of the subject of the power possessed by slaveholders, and the servility of Northern doughfaces. of the subject of the power possessed by slave-holders, and the servility of Northern doughfaces, but rejoiced in the progress of human rights and liberty. When gentlemen asked for the modifica-tion of the Republican platform, he would say there is no neutral ground between freedom and slavery. The basis of the Republican party is fundamental, and cannot be changed.

Mr. Bowie, of Md., made a discursive speech, incidentally supporting slavery, and saying that every old federalist who was in favor of the alien and sedition laws, was a Black Republican. and sedition laws, was a Black Republican.

The committee then rose, and the House ad

COMMERCIAL.

The market is undenbtedly active for groceries, as

among the dry goods dealers and jobbers, but in produce

nd provisions there is comparatively nothing deing .-

The supplies of nearly all kinds of produce are very

light, with light stocks reported, and prices are enhan-

ed. Breadstuffs, both at home and abroad, are con

manding better rates, and indicate that an advance will

be maintained. As regards provisions, conflicting opin-

ions are entertained, and we will only give facts as the

are obtained. The stock of pork in our market is in ex-

cess of last year, and including old bacon on hand, we

think the stock of bacon quite abundant. Prices of porl

SEWING MACHINE! SEWING MACHINE!

NEVER BEFORE SOLD IN THE WEST!

Price... \$30 and \$45.

THIS is no cheap, chain single thread, ripping slipch
Machine, but makes in every way the same TWO
THREAD, DOUBLE LOCK, TIGHT STITCE, as
the most popular high-priced Machines do. Its work will
not rip through, though every third slick be cust. The
principle is new, the Machine simple, easily adjusted,
and not likely to get out of order. Sews from two common spools without rewinding. They will Stitch, Hem,
Tuck and Gather—have less machinery than any other
in use, every part of which is strong and durable. Its
simplicity and strength particularly adapt it for plan-
